

MTS 2000 Analog Portable Radio

Motorola's most full-featured portable analog radio is compact and lightweight. It may be the smallest Motorola portable in its class, but it comes packed with power and performance. Using Motorola's FLASHport technology, the MTS 2000 portable is dynamic enough to change with the times through easy and economical software upgrades.

Features

- **System Compatibilities**
Compatible through software configuration with multiple system types, including Conventional, StartSite, SMARTNET, SMARTNET Type I and SmartZone systems.
- **APCO 16 Feature Sets**
Emergency, PTT-ID, Dynamic Regrouping and Selective Radio Inhibit are standard.
- **Narrow Band Operation**
Programmed to operate at 12.5, 25/30 kHz channel bands.
- **Broad Band Operation**
Interoperability between organizations on adjacent sub-bands is easier and more economical.
- **Built-In Noise Reduction Microphones**
The noise reduction microphones allows you to be heard despite background noise.
- **Mobile Companion Radio**
Compatible with the MCS 2000 mobile radio to provide an easy transition between mobile and portable usage.
- **FLASHport Software Upgrades**
Allows you to add capabilities and features to your radio as your communication needs evolve.
- **Network Availability**
Analog, Conventional or Trunking, Encryption, FLASHport Software, APCO 16 Compliant, 12.5, 25/30 kHz channel spacing, VHF, UHF, 800 MHz and 900 MHz.
- **Programmable Side Buttons**
- **Weather-Sealed Universal Connector**
- **Display Annunciators**
- **Native Language Displays**
